

CFA Orlando – Job Center Posting: PCE Investment Bankers – Winter Park, FL

Financial Analyst - *accepting applications*

Our financial analysts work in all disciplines of the company. The analysts spend concentrated time in Investment Banking (M&A and Corporate Finance) and the Valuation groups. Our analysts work closely with senior executives of the firm and are considered integral to the completion of our client engagements. Successful analysts will provide meaningful contributions to the delivery of our services and exceeding the expectations of our clients.

Analysts may work in teams or alone, and work on multiple projects at any given time. Typical responsibilities are research, analysis and presentation materials related to customer development and client engagements. Additionally, analysts assess companies' financial and operational performance, build financial models to depict a company's historical and future results, and present conclusions and write offering memorandums to describe a company's strategy and growth prospects.

Hiring Criteria: PCE recruits self-motivators who are distinguished by their academic achievements, extracurricular activities and work experience. Analysts should possess strong quantitative, communication and interpersonal skills and a winning attitude. We seek individuals who have a passion for learning about growth companies and providing excellent client service. We prefer candidates with a previous work experience in financial services or in a finance capacity with a corporation.

Education: Successful candidates will have a Bachelor of Science or Arts degree, and / or a Master of Business Administration. We prefer candidates with a broad educational experience, and therefore, a finance undergraduate degree is not required. However, finance classes or an understanding of financial statements are required.
